

Yahsat at a glance

Al Yah Satellite Communications Company PJSC (Yahsat) is a public company listed on the Abu Dhabi Securities Exchange. A subsidiary of Mubadala Investment Company, Yahsat offers multi-purpose satellite services to more than 150 countries across Europe, the Middle East, Africa, South America, Asia and Australasia.

Innovative

> Read our case study on pages 32 and 33

Continuous innovation drives our multi award-winning maritime satellite voice solution with tracking and monitoring capabilities, MarineStar, making it the provider of choice for satellite connectivity over the world's busiest sea routes and fishing hotspots.

Unwavering

> Read our case study on pages 34 and 35

Our global satellite footprint and market-leading solutions play a vital role in helping communities around the world that lack reliable connectivity. Our unwavering commitment to being a responsible corporate citizen by using our network and solutions to assist those in need encouraged our partnership in Zimbabwe to deliver education via our broadband services.

Ambitious

> Read our case study on pages 36 and 37

In line with our ambition to become a leading international Internet of Things (IoT) player with a disruptive, direct-to-satellite service, Yahsat invested in eSAT Global. The resulting partnership is a critical step in establishing our presence in a high-growth sector to deliver low-cost, low-latency, global IoT services to customers across our footprint.

What We Do

Yahsat provides a wide range of fixed and mobile satellite solutions for land, maritime and aero platforms to governments, enterprises, communities and individuals in over 150 countries across Europe, the Middle East, Africa, South America, Asia and Australasia. In 2020, Yahsat commenced construction of Thuraya-4 NGS, the next generation telecommunications system, which is due to enter service in 2025.

Our Global Footprint

Yahsat's fleet of five geostationary satellites reaches more than 80% of the world's population, enabling critical communications including broadband, video broadcasting, backhauling, and mobile voice and data solutions.
